SUMMARY

Passionate FullStack AI Engineer with expertise in Generative AI, building advanced multi-agent systems using LangChain, LangGraph and CrewAI. Leverages a MERN full-stack background and Python/FastAPI to architect and deliver robust, end-to-end scalable applications.

WORK EXPERIENCE

Software Engineer - HOGR Food Network Pvt Ltd, Kochi Feb 2024 - Present

Solely developed end-to-end frontend of the HOGR, HomeSe, and Chocochip.ai web applications using React, Redux, and Laravel, delivering a responsive UI with a modular architecture to support future scalability.

Marketing / Web Development Associate - KG Denim, Bengaluru Feb 2022 - Apr 2023

Built static web pages using HTML, CSS, and JavaScript for marketing initiatives and product showcases, and collaborated with brands such as Arvind, Aditya Birla, Levi's, and Landmark at KG Denim to develop denim and non-denim fabrics.

Merchandiser (PD) - Gokaldas Exports Ltd, Bengaluru Nov 2021 - Feb 2022

Worked as a Product Development Merchandiser for GAP at Gokaldas Exports, responsible for coordinating with the brand team on new designs, sourcing fabrics and accessories, planning sampling and costing, managing sample development and dispatch, and handing over confirmed orders to the bulk production team.

Enquiry Manager - Advanced Clothing Concepts, Coimbatore Sep 2019- Oct 2021

Worked as an Enquiry Manager at Advanced Clothing Concepts, coordinating with the sales team to understand customer requirements and translating them into detailed briefs for the design team. Managed sample development, trims sourcing, costing, and end-to-end order execution to ensure customer needs were met effectively.

EDUCATION

AI Engineering - Progression School, Delhi Jun 2025 - Oct 2025

FullStack Web Development (MERN Stack) - Masai School, Bengaluru Apr 2023 - Feb 2024

B.Tech - Anna University, Chennai Aug 2015 - May 2019

SKILLS

AI Skills: RAG, MCP, LangChain, LangGraph, Multi-Agent Systems.

Languages: Python, JavaScript / TypeScript, PHP

Frameworks: React.js, Next.js, FastAPI, Node.js, Express.js

Databases: MongoDB, SQLite, FAISS, ChromaDB, Pinecone.

Collaboration & DevOps : Git/GitHub, CI/CD (GitHub Actions), AWS: S3, Agile, Jira.

PROJECTS

Chocochip.ai - Virtual Waiter Chatbot

[Live Demo](#) — [GitHub](#)

- Implemented the **Chocochip AI assistant**, allowing guests to interact with an intelligent virtual waiter that provides instant menu recommendations, ingredient insights, and order support.
- Designed a **Retrieval-Augmented Generation (RAG)** architecture using Vector DB for contextual data retrieval, with a **Node.js** backend a **React + Tailwind CSS** frontend for seamless chatbot interactions and Laravel-based admin dashboard.

HOGGR

[Live Demo](#) — [GitHub](#)

HOGGR is a restaurant web platform that enhances dining experiences through digital ordering and social interaction. Built the **React + Redux web app** for users to scan QR codes, explore menus, order, and review dishes, along with a **Laravel admin dashboard** to manage restaurant operations.

AI Portfolio

[Live Demo](#)

Built an interactive AI portfolio using Next.js, React, and OpenAI's API where visitors chat with an AI assistant to explore skills, projects, and experience. Features include real-time streaming responses, animated UI, and responsive design .

HomeSe

[Live Demo](#)

Developed the front-end of HomeSe using **HTML , CSS and vanilla JavaScript** , HomeSe helps home-grown food brands to build digital storefronts, showcase their home cooked products, and sell directly to customers with zero commission. Use cases include brand setup with video menus, direct payment linking, inventory/availability control, and sharing the store link for discovery and sales.

DECLARATION

I hereby declare that all the information provided above is true and correct to the best of my knowledge and belief.
