🧩 SOFT SKILLS

Problem Solving, Proactive, Easy to Adapt, Effective Communication & Attention to Detail

👤 PROFILE

Full Stack Developer with 3 years of experience building scalable and interactive web applications. Strong expertise in **React.js, JavaScript, HTML5, and CSS3**, with hands-on experience in **Next.js** for modern frontend development. Skilled in **Node.js/Express.js** for backend APIs, MongoDB & **SQLite**, for database design and optimization, and integrating **REST APIs** with secure authentication (JWT, OAuth). Adept at developing reusable UI components, managing state with Redux and Context API, and ensuring high-performance, cross-browser compatible interfaces. Familiar with **cloud deployment (AWS)**, CI/CD practices, and Agile workflows. Passionate about solving real-world challenges, contributing to product development, and writing clean, maintainable, and impactful code.

💼 PROFESSIONAL EXPERIENCE

HOGR Food Network Pvt Ltd

Software Engineer

Feb 2024 – Present | Bangalore, Karnataka

- Built **responsive, scalable web applications** using React.js, Next.js, HTML5, CSS3, JavaScript, and TypeScript.
- Optimized **web performance and load times** through efficient coding practices, caching, and cross-browser compatibility improvements.
- Integrated **RESTful APIs** and implemented state management using **Redux/Context API** to build maintainable, high-performing applications.
- Collaborated with **designers, product managers, and backend teams** to deliver client-facing features.

KG Denim Limited

Marketing & Web Development Associate

Feb 2022 – Apr 2023 | Bangalore, Karnataka

- Developed static web pages using HTML5, CSS3, and JavaScript for marketing initiatives and product showcases.
- Built promotional landing pages and internal tools to support brand communication strategies using Webflow and custom API integrations.

📁 PROJECTS

HOGR 🔗

HOGR is the official online presence of HOGR Food Network Limited, designed to showcase the brand, services, and digital ordering capabilities.

ChocoChip.ai 🔗

ChocoChip is an AI-powered virtual assistant platform designed to enhance the customer experience in the restaurant industry. It features a dual-interface system: a Laravel-based admin dashboard for restaurant owners to manage data, and a React.js + Tailwind CSS chatbot interface for customers to interact with.

HOGR Ordering Web App 🔗

A mobile-first web application built for HOGR Foods, designed to simplify and enhance the restaurant ordering experience.
